 brett.k.kaplan@gmail.com

Senior UX Designer with 6+ years of experience designing complex, high-impact products across enterprise platforms, e-commerce, and internal tools. Specializes in designing complex, workflow-heavy systems, design systems, and post-purchase experiences at scale. Known for translating ambiguous business problems into clear product direction, aligning cross-functional teams, and delivering accessible, measurable UX improvements across global markets.

LEADERSHIP HIGHLIGHTS

- Led the creation and evolution of scalable design systems adopted by global and satellite teams, improving UI consistency and accelerating design-to-development workflows.
- Facilitated cross-functional workshops to define user problems, map end-to-end journeys, and align product strategy across design, product, and engineering.
- Mentored junior designers through critique, feedback, and process guidance, raising design quality and team confidence.
- Championed accessibility and WCAG compliance, ensuring products meet diverse user needs and industry standards.

EXPERIENCE

Thermo Fisher Scientific | Senior UX Designer

Los Angeles, CA Nov 2021 - Present

- Led UX design for post-purchase e-commerce experiences across global markets, improving customer satisfaction and reducing Customer Effort Score (CES) through workflow simplification and clearer information architecture
- Designed and maintained global and satellite design systems for the e-commerce organization, driving a 30% increase in adoption and improving cross-team consistency
- Delivered 20+ responsive mobile app screens for the Asia-Pacific region, tailoring experiences to regional behaviors and usability needs
- Contributed to data-informed design decisions by incorporating usability feedback, analytics, and stakeholder input into iterative improvements
- Partnered closely with Product Managers, Engineers, and Researchers to translate user insights and business requirements into actionable design solutions

Wasatch BioLabs | Lead UX Designer

Contract October 2024 - January 2025

- Led the end-to-end redesign of Wasatch BioLabs’ Laboratory Information Management System (LIMS), improving critical workflows including account creation, sample submission, order tracking, and report access in a regulated scientific environment
- Conducted stakeholder interviews, competitive analysis, and user journey mapping to define product direction and uncover usability gaps
- Translated complex scientific and operational workflows into intuitive, user-centered interfaces for both researchers and administrators
- Designed and delivered 20+ wireframes, interactive prototypes, and high-fidelity annotated designs in Figma, supporting both researcher and administrator use cases
- Partnered with engineering and leadership to balance usability, scalability, and technical constraints in a time-bound delivery cycle

Activision | UX Designer / Optimization Specialist

Los Angeles, CA June 2019 - Nov 2021

- Identified optimization opportunities through user journey mapping and experience audits across digital products
- Conducted qualitative and quantitative research including competitive analysis, stakeholder interviews, surveys, and usability testing to inform design decisions
- Applied data and user feedback to iterate on designs and improve performance across key user flows
- Contributed to a reusable component system for an internal application, improving efficiency and design consistency

CORE COMPETENCIES

UX Strategy & Leadership

Strategic UX design
Design system leadership
Cross-functional collaboration

User Research & Insights

Stakeholder interviews
Competitor benchmarking
Journey mapping
Usability testing
Data-informed decision making
A/B Testing
Data Visualization

Interaction Design & Prototyping

Wireframing and high-fidelity prototyping
Micro-interactions
Responsive design

Accessibility & Inclusive Design

WCAG compliance
Accessibility audits
Designing for assistive technologies

Tools & Technologies

Figma
Miro
Adobe Creative Suite
JIRA/Confluence
Notion
Usability Hub
Google Analytics
HTML/CSS/Sass/JS

EDUCATION

University of Rhode Island
Kingston, RI – May 2014

PROJECTS

Martha Troup Coaching — UX / Web Design
SportsStream (Personal Project) — UX / UI Design

CERTIFICATIONS

CS50: Introduction to Computer Science | Harvard University
Issued April 2024

Springboard— Certified UX Career Track
Issued April 2020
